a cooperative weed management area is...

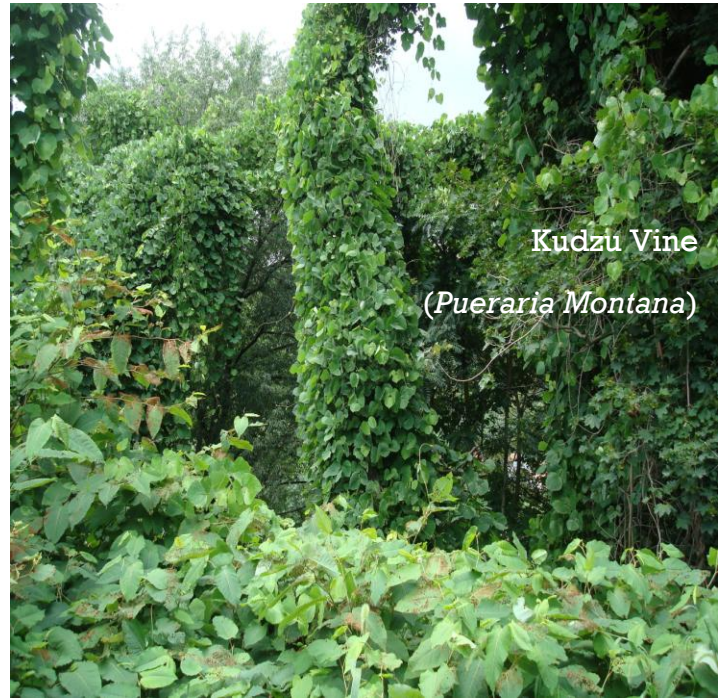

an organization that integrates all invasive plant
management resources across jurisdictional boundaries to
benefit both the community level and regional level

Steering committee

Commitment

The vital parts of a CWMA are...

Collaborative efforts

partnerships

equal weed management success

What do CWMAAs do?

- ✓ Education
- ✓ Outreach
- ✓ Prevention
- ✓ Early Detection
- ✓ Rapid Response
- ✓ Monitoring
- ✓ Integrated Pest Management
- ✓ Planning
- ✓ Networking
- ✓ Facilitation
- ✓ Resource Sharing
- ✓ Produce Measurable Results

Components of the Juniata CWMA:

1. Prioritized blueprint for dealing with terrestrial and aquatic weeds within the entire watershed
2. Initial support provided by the National Fish and Wildlife Foundation: Pulling Together Initiative, USDA Animal and Plant Health Inspection Service, PA Department of Conservation and Natural Resources, Foundation for Pennsylvania Watersheds, and REI
3. Unique landscape-based, species-inclusive early detection and rapid response
4. Predictive modeling
5. 50% public awareness
6. Quantifiable prevention
7. Educational curriculum
8. Demonstration sites
9. Service learning
10. Fifty-member partnership
