

Raystown Riparian Vegetation Conservation Plan

A Strategy for Invasive Plant Management in the Watershed

Table of Contents

Acknowledgements.....	p. 5
Executive Summary.....	p. 7
Figure 1. Map of the Raystown Branch Watershed	
Table 1. Twelve High Threat Species of the Raystown Watershed	
1. Introduction.....	p. 11
1.1 Invasive Plants National Perspective	
1.2 Raystown Invasive Plant Management Plan Development	
1.3 Benefits of Invasive Plant Management	
1.4 Invasive Species and Noxious Weeds within Raystown Branch Watershed	
Table 2 Nonnative Invasive Plants	
Graph 1 Noxious Weeds Identified	
Graph 2 Invasive Plants Identified	
Table 3 Status of Invasive Plant Infestations	
1.4.1 Status Explanations	
1.5 Priorities for Invasive Plant Management	
1.5.1 Manage: Invaded Agricultural, Horticultural and Native Ecosystems	
1.5.2 Natural Areas	
1.5.3 Early Detection and Rapid Response	
1.5.4 Native Plant Restoration Strategies	
1.5.5 Wildlife Habitat	
1.5.6 Boundary Areas	
1.5.7 Areas Where Removal Can be Integrated With Other Tasks	
1.5.8 Corridors That Encourage Invasive Species Movement	
1.5.9 Recreation Areas	
2. Education and Outreach.....	p. 27
2.1 Public Meetings, Articles, and Website	
2.2 Trainings and Workshops	
2.3 Demonstration Projects	
2.4 Prevention Guidelines	
3. Determining Extent of the Problem.....	p. 32
3.1 Sampling Methodology	
3.2 Surveys of Raystown Sites	
3.3 Working List of Invasive Plants	
Table 4 List of Unwanted Plants Potentially Found Throughout the Raystown Watershed	
4. Plan for Management of Invasive Plant Species.....	p. 34
4.1 Management Approach	
4.1.1 Target Invasive Plants by Species	
4.1.2 Most Likely To Be Controlled	
4.1.3 New Invasive Species Populations	
4.1.4 High Density Occurrence	
4.1.5 Target Invasive Plants by Areas	
4.1.6 Environmentally Sensitive Areas	
4.1.7 Target Routes of Dispersal and Invasion	
4.2 Prioritizing Options	

- 4.3 Long-term Planning
 Table 5 Project Timeline
- 4.4 Funding Options

- 5. Control Options and Recommendations for Invasive Species Removal.....p. 41**
 - 5.1 Mechanical Treatments
 - 5.2 Biological Controls
 - 5.3 Chemical Treatments
 - 5.4 Proper Disposal Methods
 - 5.5 Implementation Strategy
- 6. Sites of Concern.....p. 46**
 - 6.1 Introduction
 Table 6. Summary of Significant Natural Areas
 - 6.2 Recommended Control Methods for Sites of Concern
- 7. Restoration of Treated Sites.....p. 61**
- 8. Recommendations.....p. 63**
- 9. Conclusion.....p. 65**
- 10. Glossary.....p. 66**
- 11. Documents Cited.....p. 68**
- 12. Appendices.....p. 70**
 - Appendix A: Nonnative Invasive Species Descriptions.....p. 71
 - Appendix B: Sampling Methodology.....p. 135
 - ♣ Data Collection Sheet
 - ♣ Sample Prioritization Sheet
 - ♣ Prioritization Sheet For The Watershed
 - Appendix C: Maps.....p. 149
 - ♣ Area Map
 - ♣ Species Distribution Maps
 - Appendix D: Control Options.....p. 151
 - ♣ Invasive Plant Timeline
 - ♣ Natural Herbicides
 - ♣ Table 2 from the Weed Management In CREP Grasslands Booklet
 - Appendix E: Partnerships.....p. 161
 - Appendix F: Vegetation Control Contractor List.....p. 165
 - Appendix G: Invasive Species Resources.....p. 171
 - ♣ Web Resources
 - ♣ Who To Call Lists
 - Appendix H: Excerpts From Other Plans.....p. 189
 - ♣ Bedford County Comprehensive Plan
 - ♣ Huntingdon County Comprehensive Plan
 - ♣ US Army Corps Invasive Species Management Plan For Raystown Lake
